Reference Concerning the Work of Vassilev & Partners Law Firm

doubleSlash Net-Business GmbH is a Germany-based software company specializing in the design and development of tailored software solutions and digital products. With more than 25 years of experience, we support leading enterprises in the automotive, medical technology, industrial and public sectors in building secure, scalable and high-quality software systems.

In 2025, we engaged Vassilev & Partners Law Firm to guide us through the **complete legal process of acquiring a majority share in a Bulgarian company**. The transaction required precise coordination, comprehensive legal due diligence, extensive preparation and negotiation of corporate documentation, and reliable navigation through all regulatory and procedural requirements under Bulgarian law.

Throughout every phase of the project, the team of Vassilev & Partners demonstrated **exceptional professionalism, efficiency and consistency**. Their legal advice was clear, well-founded and pragmatic. Even in complex or time-critical moments, they remained fully committed, solution-focused and transparent. Every timeline, agreement and promise was kept exactly as communicated.

Their structured workflows, fast response times and deep expertise in Bulgarian corporate and commercial law ensured a smooth and confident progression of the entire cross-border transaction. At all times, we felt well-advised and reliably supported.

Based on our experience, we can strongly recommend Vassilev & Partners Law Firm as a trustworthy and highly competent legal partner — not only for complex international corporate transactions, but also for a broad range of legal matters requiring accuracy, reliability, and professional representation.
