KappaStar
RECYCLING

REFERENCE LETTER

Kappastar Recycling Bulgaria is a part of Serbian company Kappastar Recycling which is a part of Kappastar Group. Kappastar Recycling Bulgaria is present on Bulgarian market for more than a decade, having as business activity: collection, transportion, and recycling of packaging waste from and into Bulgaria. We see Bulgarian market as market where we can expand and develop.

Together with our employees we can proudly say that we are recycling around 10.000 t (YTD 2022) of packaging waste, with a yearly turnover around 3 million EUR (YTD 2022.) and we are expecting that these figures in future will only grow.

Also, we are proud to say that besides Bulgaria, we are present in Serbia, Hungary, Romania, North Macedonia, Albania, Montenegro, Bosnia and Herzegovina.

We need to understand and comply with the law of the host country, and that's why I am really happy to say that Vassilev & Partners Law firm is a team of people that really helped us in our mission. Words that can describe Vassilev & Partners Law Firm's approach are: knowledge, professionalism, persistence.

With Mr. Konstantin Vassilev and his team we got turnkey legal assistance in our everyday business activity and also in matters like: Labour Law, Transportation Law, Contractual Law, Corporate Governance, Criminal Law.

We are working together for almost a year now and I, as a General Manager of Kappastar Recycling Bulgaria, can only say that working with this law firm made our business easier and more professional. And I hope that we will work together in the future.

General Manager

Marko Štrbac
