

LETTER OF REFERENCE

Company LAVATRADE Ltd. was established in 1997 and its business covers a wide range of activities where the main focus falls on export, import, transfer and brokering of defense-related items and dual-use products and technologies.

Having regard to the specific features and the complexity of the fulfillment of international agreements on sale and purchase of special products we often need a competent legal guidance.

In 2016 we had to seek the services of the law firm on insurance case, in which we were unreasonably denied the payment under an insurance policy by a large Bulgarian insurance company. Attorney-at-law Vassilev and his team brought an action against the insurance company. The case was won in the full amount of the claim value as well as the court fees and expenses.

The approach of the law firm is characterized by their professionalism and the ability to foresee the further development of the processes. We highly recommend the work with them.

Faithfully yours,

Managing Director

Lachezar Varbanov
